

scope interior design

scope is an Amsterdam-based interior design studio founded by Sara Zuidema.

Known for her clear vision, structured approach and refined eye for detail, Sara creates interiors with clarity, character and purpose. Fierce yet thoughtful, she cuts through the noise to reveal what really matters. Every project begins by defining the right scope – finding the balance between ambition, function and timeless design.

Sara was co-founder of a design studio and brings several years of experience across residential, hospitality, commercial and retail projects. Her work is defined by strong compositions, carefully considered materials and an understated confidence.

Willemsparkweg

residential, 2026

A residential interior defined by warm wood, Calacatta Viola marble and soft neutral tones. Original architectural details are balanced with contemporary furniture and custom-made elements, creating a home that feels refined yet understated. Carefully sourced art pieces complete the interior.

Jinja Asian bar & Kitchen

hospitality, 2025

Jinja is a modern Asian kitchen and bar where bold design meets timeless simplicity. Sculptural forms, rich materials and refined detailing create an interior with character, strength and lasting appeal. At the centre, the bar combines crisp geometry with warm lighting, becoming the focal point of the restaurant.

Keizersgracht

residential, 2024

In this historic canal house, an office was transformed into a high-end living space. A new bathroom was created, featuring a full travertine bath and washbasins. Rich materials are carefully composed and crafted into unique, custom-made elements. To complete the space, furniture from Time & Style was selected.

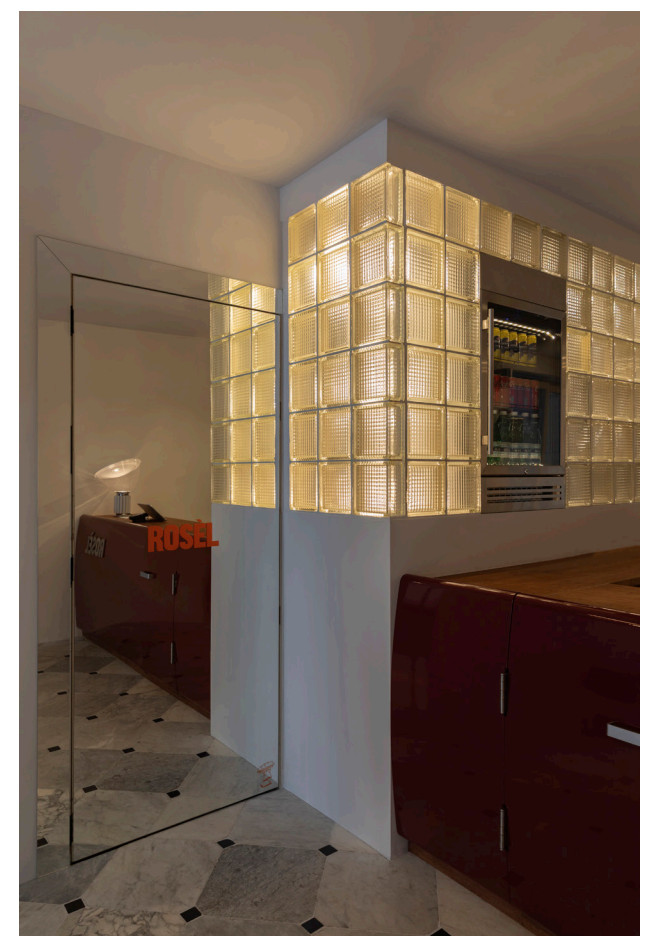

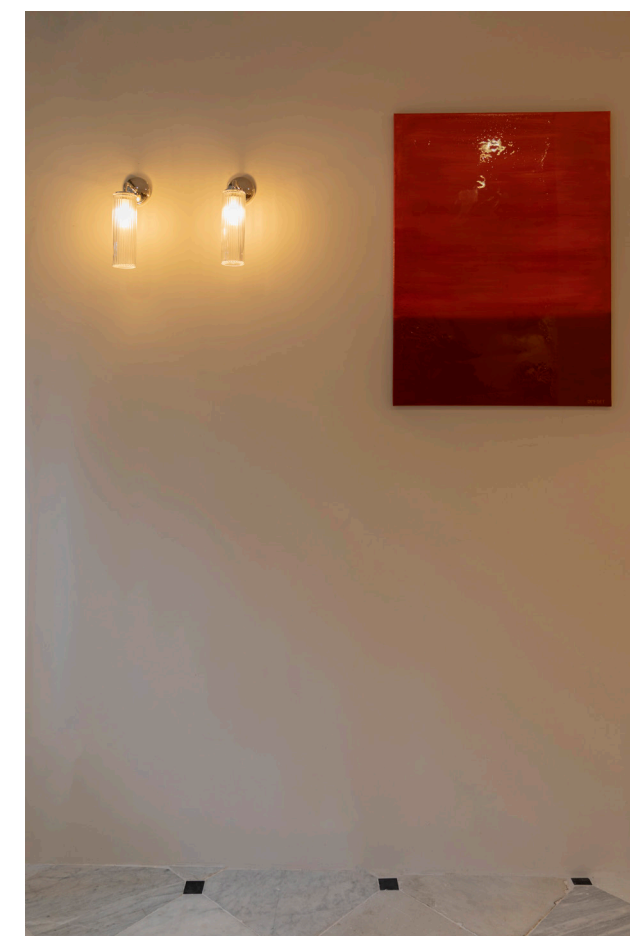

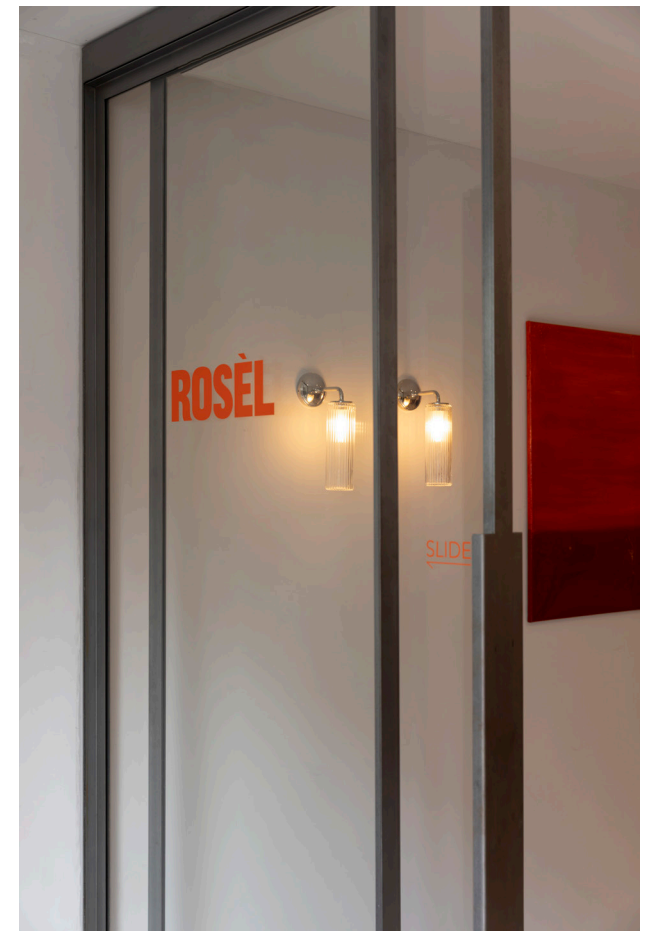

Vermut

hospitality, 2026

Vermut is an intimate restaurant where warmth, texture and subtle contrasts define the interior. Soft plastered walls, dark wood and natural stone create a layered atmosphere. Carefully selected lighting and vintage details bring character to the space.

Rosèl hospitality, 2025

Rosèl is a modern sandwich shop inspired by a vintage car. Bold curves, warm wood and high-gloss finishes come together to create an interior with a distinct, playful character. An 18th-century marble floor forms the foundation of the space, while glass bricks frame the beverage fridge, balancing function with simplicity.

Van Eeghenstraat

residential, 2024

A complete transformation of a historic building with views over Vondelpark. A blend of marble and rich wood tones creates a fresh yet warm atmosphere. The heart of the home is a spacious wooden kitchen, defined by its rounded details.

Restaurant Lucente

hospitality, 2026

Restaurant Lucente is defined by warm tones, rich wood and soft, atmospheric lighting. Custom-made elements are combined with vintage pieces, creating an interior that feels refined and familiar. Sculptural lighting and tactile materials add depth, while the restrained palette brings a sense of calm and timelessness.

Nieuwendammerdijk residential, 2023

A residential project on the Nieuwendammerdijk in Amsterdam Noord. Within the historic structure, a new bathroom was created while preserving the original character of the house. The washbasin was custom-designed around a vintage marble sink, bringing together original elements and contemporary functionality.
